Dear Parents,

For the first time, McQuaid Jesuit’s Geometry class this summer will take place online. As a result, interested students will need to be very dedicated to attending class and completing all assignments. The course will begin the week of June 22\textsuperscript{nd} and end the week of July 27\textsuperscript{th}. It will meet each weekday at 8:30 AM with a one-hour ZOOM session. Between 9:30 AM and 11:30 PM, students will work on about one-and-a-half hours of assigned material individually. They should also take a break during this time! Students will return at 11:30 PM for another one-hour ZOOM session, after which a brief quiz will be distributed to be completed and handed in by 1:15 PM. Individual appointments will be available after 1:15 PM as needed.

The tentative dates for the classes are listed below. However, due to the online format, the ending date may need some flexibility depending upon pace.

Week 1: June 22 – 25
Week 2: June 29 – July 1
Week 3: July 7 – 10
Week 4: July 13 – 17
Week 5: July 20 – 24
Week 6: July 27 – 31

The cost of the class is 650$ and may be canceled due to a lack of interest. Further info can be found on the McQuaid Jesuit’s website for academic acceleration courses. If you have any other questions not covered on the website or in this letter, please send an email message to me (cverghese@jesuits.org). I will answer your inquiries as soon as possible.

Thank you in advance for your interest in investing in your student’s mathematical advancement. I appreciate your patience as we adjust the course according to the demands and troubles amid the pandemic.

Sincerely,

Christian Verghese, S.J.
